LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 29.

EASTERN STATES.

New York News.

NEW YORK, Nov. 29.—Two bondsmen were accepted on Connolly's bail last night. Phillip Smith qualified in the sum of $100,000 and Robt. Boyd in $200,000. Two hundred and fifty thousand has yet to be raised.

It is still asserted that Hall, Sweeney and others will be arrested shortly.

Many politicians say that Mayor Hall will resign at once. The demand of the Committee of Seventy for his resignation was not unexpected. In case Hall retires, Mr. Cowan, who has been a Tammany politician, would, for the present, take his place.

A party of young Japanese arrived yesterday from San Francisco. They will leave for England, having been sent by the Government to receive an English education.

Washington officials state that Admiral Lee, with his fleet, is ordered to Cuban waters with instructions that if no satisfaction for recent outrages is rendered, to open his guns on the city of Havana.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 29.—The rain cleared up before midnight. This morning is clear and warm; wind light, north. The rainfall during the last twenty-four hours is 93-100, making a total to date 3 86-100 inches—much more than usual for November. Mount Diablo is white with snow this morning.

After any amount of backing and filling, it is announced this morning that the Kellogg Opera Troupe will not come here after all, their demand being too onerous. The public is about coming to the conclusion that the noise made over the matter is to be regarded simply in the light of gagging to increase the furore and add to receipts when the troupe finally comes.

A special steamer, the *Alaska*, arrived from Hongkong October 20th and Yokohama, November 3d this morning with a full cargo of teas, mostly in bond for New York overland. Among the passengers are Lieut. J. R. Wasson, U. S. A., E. W. Rice and Mrs. J. Murry, for San Francisco.

A Yokohama dispatch says it is rumored that the Corean Government has made a demonstration on the Japanese island of Tsu Shima, Tyn, between Nagasi and Corea, which is claimed as Corean territory. Foreigners comment severely on the action of the American Government abandoning intercourse with Corea. The Chinese Ambassadors returned to Yeddo, but through some mistake brought no treaty, the Chinese Government wanting a treaty of alliance, offensive and defensive, instead of a mere treaty of commerce.

Troubles are brewing in southern Japan in consequence of the Daimos refusing to resign their estates and their rank at the command of the Mikado.

The Japanese rice crop was never so abundant as this year.

The railroad from Yeddo to Yokohama will probably be finished next year.

E. Beastwick, member of Parliament, J. F. Dalrymple Hay, son of Admiral Sir John Hay, M. P., and Honorable W. S. Campbell, late U. S. Consul at Rotterdam, left for Europe overland this morning. They came out at the invitation of J. Ross Browne, to investigate the tule land reclamation project and prospects, and carry back full and favorable reports, and the strongest possible encouragements of the project by leading bankers, merchants, business men and State officers. The syndicate formed at the suggestion of J. Ross Browne, conditioned on the result of this investigation, will invest at least $5,000,000 immediately in the purchase and reclamation of these lands in the deltas of San Joaquin and Sacramento. The enormous yield of wheat and vegetables on the reclaimed lands surprised and delighted the Commissioners, and their report more than confirms the representations of Mr. Browne.

SAN FRANCISCO, Nov. 29.—The jury in the Municipal Court in the case of DeYoung, of the *Chronicle*, indicted for libel on Casey, of Mare Island, were out but a very few minutes this evening and returned with a verdict of not guilty.

In Twelfth District Court an evening session is being held to get through with the Turner-Ortis seduction and breach of promise case, if possible.

The Board of Health to-day passed resolutions highly complimentary to the retiring President, Hon. Thos. Selby, whose term of office as Mayor expires to-morrow.

The following steamers will sail hence on December 1st: The *Japan*, for Yokohama and Hongkong; *Prince Alfred*, Victoria.

An Absurd Governor.

Chicago papers continue to animadvert severely on Gov. Palmer for his absurd course in reference to the "military occupation" of the city at the time of the fire. The *Evening Mail* has this:

Governor Palmer writes to Mayor Mason that it occasioned him "the profoundest mortification" that the Mayor failed to inform him of the necessity of employing military force for the protection of the city, and he regrets that it did not occur to the Mayor that his own powers "were under the laws, inadequate to meet the emergencies." As we have already said, the extraordinary course of the Governor in instructing a Grand Jury to indict Lieut. Gen. Sheridan, Mayor Mason and Mr. Sherman for allowing the city to be protected by United States troops, seems to be mainly prompted by jealousy of his gubernatorial prerogatives and fear that his dogma of State's Sovereignty has suffered indignity. But the valiant Governor seems to have overlooked the fact that there had been something of a fire in Chicago. Sitting in his easy official chair he had no comprehension of the situation, and he puts himself in a very absurd attitude now by talking about indicting for murder those who protected the city in a wild emergency that admitted of no red tape delays. We ask again if Governor Palmer would "indict" for burglary a man who should enter his house to remove goods when it was on fire, because he did not first ring the bell?

The *Lancet*, high medical authority in foreign professional circles, calls attention to the enormous manufacture in England of the new sedative drug, chloral. It states that it is sold by tons a week, and quotes a letter from Baron Liebig, affirming that the German chemists manufacture and sells half a ton every week. No such quantity is used in medicine, and the *Lancet* seems half afraid that it gets into beer. The London *Spectator* thinks there is a simpler explanation: "Taking chloral is the new and popular vice, particularly among women, and is doing at least as much harm as alcohol. The drug is kept in thousands of dressing-cases, and those who begin its use often grow so addicted to it that they pass their lives in a sort of contented stupification. Chloral drunkards will soon be an admitted variety of species." The testimony of American physicians confirms the view taken by the two British periodicals here referred to.

A TYPO'S ERROR.—The anguish of editors will never cease until type-setters are wiped off the face of the earth. There, for instance, is the editor of the *Eastern Argus*. He alluded to one of the most eminent citizens of his village as "a noble old burgher, proudly loving his native State." But was it not a serious cause for dissatisfaction when he saw in the paper next morning that the remorseless fiend had made him speak of the eminent citizen as "a nobby old burglar prowling around in a naked state?"

The novel which Fields mentions in "Our Whispering Gallery" as having been long in Hawthorne's mind, and which he said long ago he intended to write, viz: "The Story of a Deathless Man," has lately been found among Hawthorne's papers, and is to appear next year in America and England.

THE TERRITORIES.

The W. T. Legislature has gone into the divorce business. Dirty business for a Legislature.

The Legislature of Washington Territory has memorialized Congress to appropriate $60,000 to be used in removing obstructions from the Upper Columbia river.

A pottery on Dry Creek, about 15 miles from Walla Walla, which had just got under way, was destroyed by fire last week. Loss, $300. It belonged to Messrs. Smith & Sang.

The Walla Walla *Statesman* deems this season of thanksgiving an appropriate time to refer to the claims of the preachers, and suggests that the different congregations inquire into the financial condition of our ministers and see that they are provided with the means to secure the comforts of life.

NEWS CONDENSATIONS.

The California Legislature assembles next week. The Senatorial kettle is boiling at a terrible rate.

The largest freight depot on the Oregon branch of the Central Pacific Railroad is now being erected at Red Bluff.

The estate of the late William E. Barron of San Francisco is estimated at from five to eight millions of dollars, and is given mostly to heirs residing in Spain.

At the Gubernatorial election in Wisconsin in 1869 the Republican candidate had a majority of 8,263. This year Washburn beats Doolittle (Dem.) 9,088; a Republican gain of 825.

The Chicago *Times* says the local agent of the Pacific Insurance Company in that city is notifying policy holders to return their policies, for the reason that the Company will be unable to meet its obligations in full.

Secretary Boutwell has suggested that as the income tax will expire by limitation in 1872, and as but one more collection can be made under the same, the Senate Finance Committee make no recommendations affecting this source of revenue.

Many of the artesian wells in Santa Clara Valley (Cal.) are giving out. Some which flowed largely years ago are now dry, while in others the flow has greatly diminished. Legislation has been suggested to prevent a waste of water from those now flowing freely, as the time is looked for when it will be needed.

In San Francisco some time since the driver of a fire steam engine ran over and killed a little girl. The case was taken to the Courts, and the Court below awarded the parents damages in the amount of five thousand dollars. The City of San Francisco, against which the judgment was given, appealed to the Supreme Court, and that tribunal has confirmed the judgment of the Court below, thus holding that the city is responsible for the negligence of its agents.

The Grain Trade by New Orleans.

The St. Louis *Democrat* regards it as a "dead sure thing" that the grain trade of the Mississippi valley must go by the Mississippi river to the ocean, and says that the only thing that remains to be done is to provide at once greater and better means and facilities for the transportation of the millions of bushels of cereals which are awaiting shipment. The Chicago *Tribune* at length admits the advantage of the outlet by way of New Orleans, at least during the season of suspended lake and river navigation, lasting generally from early November to the middle of May, and also says the apprehensions that some entertained, that in the passage through the Gulf of Mexico grain might become heated and injured, have not been justified by the result of experiments, corn and wheat shipped from New Orleans to Liverpool having arrived in good order. The *Tribune* takes occasion to suggest that arrangements could easily be made to obtain through bills of lading from Chicago to Liverpool via New Orleans, insured for the whole transit, upon which bills of exchange might be drawn, and thus enable the merchant in Chicago to realize at once upon corn and wheat shipped from there. Whereupon the *Democrat* remarks that there is only one thing for St. Louis to do now, and that is, "to be lively with her barge lines and elevators, so that our neighbor at the North may not realize too freely the fruits of an enterprise which belong so justly to us."

THE NEW YORK TIMES AND THE RING.—The St. Louis *Democrat* has this interesting mention of a prominent writer of the New York press, who fought so gallantly against the Tammany ring:

George Jones, of the New York *Times*, is not an Englishman. He is Raymond's old partner, and was one of the original proprietors of the *Times*. He is a native of New York. The story about the Englishman grows out of the fact that Lewis J. Jennings, managing editor of the *Times*, is an Englishman by birth. He is the author of the slashing articles on the ring that have made the *Times* famous as the champion of the people. Those articles have appeared every day—sometimes two or three of them in a day—for more than a year. Their force has been terrible, and at last all opposition has been overcome. There never was in newspaper history a subject more fascinating than that of the millionaire robbers of New York; and Jennings, in the *Times*, has done it ample justice. His editorials and Nast's caricatures have done the country an immense service. Though one was born in England and the other in Bavaria, they are pretty well naturalized; and we doubt whether there are many persons in America who will regard them as crushed when they are reproached as foreigners.

A SUBTERRANEAN LAKE IN ILLINOIS.—The St. Louis *Democrat* gives publicity to the following:

McGinness, living near the village of Loami, in Sangamon county, Illinois, in sinking a well recently, came to a body of water which appears like a subterranean lake. A most remarkable feature about this strange body of water is that, almost ice cold, it is stirred by some hidden force, and boils and bubbles up to the hight of several feet above the level when at rest, and that this commotion of the water occurs at regular intervals—an hour of rest, succeeded by an hour of bubbling, and so on, alternating from calm to troubled waters. A gentleman who reached here to-day from Loami says that "its boiling and swelling make noises like the roar of the ocean or the Gulf of Mexico—and its pulsations, which occur every other hour, sound like the beat of a tenor drum, and the vibrations of the boiling water, shake the ground near by like the trembling of an earthquake. It appears to be a never-failing lake of waters and furnishes a splendid opportunity for meditation and scientific investigation rarely met with in this country."

BEECHER AND CHICAGO.—Although the members of Beecher's congregation had given privately over $30,000 in aid of Chicago, an appeal from the Dominie secured $5,000 and upwards, as the contribution of the congregation. In reference to the universal uprising of the people, he said, "the theaters are vieing with the churches in this good work. God bless the theaters."

Just at present they are going it on the "fire proof" idea in Chicago. Dealers are advertising—(they do advertise in Chicago, because they know it is the way to get customers)—fire proof furniture, fire proof dry goods, fire proof groceries, etc. This seems to be rather stretching the figures of speech—but it is eminently Chicagoish.

Will Chicago Hold her Own?

[From the New York Commercial Bulletin.]

It may be regarded as creditable to the enterprise of what are generally regarded as the "rival cities" of Chicago that they are making strenuous exertions to gain permanently the trade that has been temporarily diverted from the ruined city. That they will at least partially succeed is probable, and even desirable. But that Chicago will rapidly grow up to the full measure of her functions as the great receiving and distributing centre of the West can scarcely be doubted. Nothing more clearly shows the capacities of Chicago than the fact that, notwithstanding this tremendous disaster, there was no apparent interruption or abatement of the great flow of Western grain and breadstuffs through the city to the East. Its 400,000 tons of shipping were uninjured; the 24 great lines of railway that center in the city remained intact; and the 250 trains that daily arrive and depart were only delayed a few hours in order to replace a few broken links. Then the great business of the city rapidly fell back into its old channels, and the services of Chicago as a medium of communication between the vast producing and consuming interests of the world scarcely experienced a temporary check.

It is just here that the real superiority of Chicago is chiefly demonstrated; and it is here also that we find the most satisfactory evidences of its future recuperation. Individual interests may suffer. There are broken threads of commercial intercourse that can never be reunited. Small channels of trade will no doubt be diverted to Cincinnati, St. Louis, Louisville, Milwaukee, and other cities. But all this will effect little or nothing in comparison with the grand result. The growth of the West will lift Chicago up to more than her full measure of former prosperity.

Besides, the "rival cities" have no adequate capital or business facilities to take up the commercial relations sustained by Chicago. They already control nearly all the trade for which their capacities are adequate, and cannot expand in proportion to their ambition before Chicago shall have recovered her ability to eclipse all rivalry.

As an evidence of this we find the Cincinnati papers complaining of the inadequacy of the banking resources of that city for even the requirements of local traffic. The St. Louis papers report a meeting of business men to devise means for affording facilities for grain freightage. Interior shippers have to wait days, and in some cases a week, for cars to transport grain to that city. On its arrival there matters are still worse. The result is that the margin of profit gained by grain shipments to St. Louis is eaten up by warehouse insurance and cost of shipment. Interior shippers therefore find it more advantageous to sell grain to Chicago at 5c a bushel less than to consign it to St. Louis with a prospect that it will be held two or three weeks in transit, and then take the chances of decline.

New Orleans is in nearly the same condition. At a meeting of the Chamber of Commerce in that city a few days ago it was stated that St. Louis merchants could not ship grain to New Orleans for want of vessels to carry it. Now the water in the Mississippi is low, and the steamers cannot carry full freight owing to the shallow depth. The chronic obstructions to navigation at the mouth of the great river also constitute a serious barrier to progress.

Now it is highly creditable to all the "rival cities" that they are always in a flutter of anxiety to remove all barriers, and gain at least a full share of internal commerce. If they have not succeeded as well in the past as could be desired, that is no reason why they should not put forth renewed exertions on this occasion. We trust they may be successful. At any rate, some advantage must be realized from the attempt.

Governing Cities.

A paper which will be certain to attract the attention of thoughtful men throughout the country, is the essay of Mr. Charles Nordhoff on the Government of great cities, in the current number of the *North American Review*. The arguments and illustrations of the writer of course refer principally to New York city, but the article contains many valuable suggestions, susceptible of application to the management of all large metropolitan towns. The author considers the great evil of all the municipal charters which New York has had to lie in the limitations of the powers of the people over their own concerns. He argues that instead of the government of that city having made the people responsible to themselves, it has always been founded on a wholly unreasonable distrust and fear of the masses. He characterizes the statement that the city is unfit for popular government as "pure nonsense," and says, on the contrary, that there is no salvation but in the direct and effective action of the populace; who, although the majority are poor, and live from hand to month, are in main peaceable and law abiding. Referring to the riotous element in that city, Mr. Nordhoff states that its lawless bodies are always so limited in numbers and despicable in character as to be readily put down by the police, and he alleges that there are the best reasons for believing that the actual rioters in the anti-draft insurrection of 1863 did not number a thousand. The writer suggests the Constitution of the United States as the best mode for the organic municipal law of New York; urging that the main features of that instrument are as applicable to the city as to the whole country. The plan proposed by Mr. Nordhoff is that the Mayor should be elected for a short term by the whole people, appointing all his subordinates for the same period; that the city judiciary should be appointed by the Mayor, to hold office during good behavior; with a Common Council having power over every purely municipal interest, especially over the appropriations of the city government. The details of the plan are set forth at large, and although it is somewhat doubtful whether his views will find general acceptance, they will unquestionably enlist attention, provoke healthy discussion and exert a salutary influence.

Important Land Decision.

A late San Francisco paper contains the following:

Judge Field rendered an important decision, lately, in the United States Court, which affects the interest of many persons in Nevada. The Central Pacific R. R. Co. brought suit to quiet title to a number of pieces claimed by settlers who had made their locations on the line of the road, after the passage of the bill, but before the route was determined. These tracts were owned by the Company, and the settlers demand damages and threaten to bring suit. The company forestalled them by a suit to quiet title. Justice Field decides that the grant to the railroad went into effect when the bill passed; the settlers took their claims subject to the provisions of the bill; and the rights of the company to the land are not depended upon the date when the road was located. These points arose on a demurrer, but as that raised all the material questions in the case, the decision overruling the demurrer virtually finished the suit.

The Olympia *Tribune* says of this decision:

If it be, it will invalidate a large number of titles to lands in this and other Territories through which the Northern Pacific Railroad will pass; for it applies equally to the last named road. The press and people of Montana are discussing the question, not without alarm. A large proportion of the existing claims in the vicinity of Puget Sound were taken long subsequent to the passage of the bill, and are, therefore, under this ruling subject to its provisions.

Will Tweed be admitted to a seat in the New York Senate? This is a question which many are now asking. The following resolution, adopted by the Reform Democrats of Monroe county, in convention at Rochester, will throw some light on the intention of his opponents:

Resolved, That no Senator should be elected in this State at the approaching election who will not publicly pledge himself to vote, when elected, against William M. Tweed's taking his seat in and disgracing the Senate of this State. So notorious a public robber and audacious a swindler should never again be permitted to contaminate by his presence the Senate Chambers, or desecrate seats occupied by able and honorable statesmen. The State Prison, and not the highest legislative hall, should be honored by his occupancy.

During our interview, the American Consul at Bankok, presented the King an elegant assortment of his medicines from Dr. J. C. Ayer of Lowell, Mass., for the use of the Court. He explained to his Majesty their origin from the great chemist and their uses. The Cherry Pectoral for coughs—the Sarsaparilla for eruptive diseases and the Ague Cure for the fevers that are so fatal in this hot country. The dangerous condition of a favorite wife in the palace, with one of the disorders these medicines cure, gave him special interest in these products of medical skill, and I [illegible] these medical marvels interested him more in our country than all the other attentions we had shown him.—*Letters from a Lady in Siam.*

EVIDENCES OF DR. ABORN'S SUCCESS

In the treatment of

CATARRH & NERVOUS DEBILITY.

TO THE AFFLICTED:—I wish to say that I have been afflicted for about fifteen (15) years with Nasal Catarrh. Of late it affected my throat and lungs and prostrated my whole system, so that I was scarcely able to pursue my business. I had tried several physicians without deriving the least benefit. In this seemingly hopeless condition, I applied to DR. ABORN about three weeks ago, and placed myself under his treatment, and I am most happy to state that I found wonderful relief within five minutes after using his apparatus and medicine, and continued to improve. I am now cured of the cough and pains through my chest and body, and, in fact, both mentally and physically I feel like a new person. I have recovered from the nervous debility. The offensive odor from my head and breath, which was so annoying, has disappeared. I have gained about eight pounds in three weeks. The Doctor has accomplished more in three weeks than what I supposed was possible to have done in as many months. Truly, M. L. DEAN,

ON

NASAL CATARRH.

DISEASE TENDING TO CONSUMPTION.

This is a chronic affection of the mucous membrane of the nostrils or the throat, originating in irritation or inflammation, and attended by more or less discharge. It is one of the most common, most disgusting, and finally, most destructive of diseases incident to the variable climate of our northern latitude.

In its early stages catarrh often fails to attract the patient's attention, so insidious is its approach. This is an unfortunate circumstance, because the most favorable period for treatment is thus unimproved, and because of the peculiar disposition of this disease to extend, upward to the frontal sinuses, backward through the Eustachian tubes to the middle ears, and down through the larynx, trachea, and bronchia, to the air-cells of the lungs.

The discharge from the affected part is at first a clear fluid, which may escape observation, unless it chance to be of a more than usually acrid character. As time goes on this gives place to a fluid that is thicker, and of a yellowish green color, and still later this may be succeeded by thick flakes or scales.

In all the more advanced stages the discharge are generally of an offensive odor, causing great annoyance to one's friends and to the patient himself, while his sense of smell remains. This annoyance from the odor becomes almost beyond endurance, when, as sometimes happens, the delicate bones of the nose become diseased.

Some cases early assume the character of Dry Catarrh. There is then a feeling of uneasiness, heat and stiffness in the nostrils, which are often (one or both) [illegible] closed by thickening of the mucous membrane, and thus a difficulty of breathing becomes a prominent symptom.

On examining the nostrils in Chronic Catarrh, with instruments specially adapted to that purpose, we find their lining membrane thickened and of a deeper color than in health. There are seen little points of ulceration, upon which the secretion becomes hardened and forms crusts. When these are picked off, the diseased surface is irritated, and frequently bleeds profusely.

In each case of Catarrh the prominent symptoms are determined by the direction in which the disease extends. If this be upward there may be pain over and between the eyes, obstruction of the lachrymal ducts, causing the tears to flow over the cheeks, and possibly opthalmic inflammation of the eyes. If backward, there will be thickening of the walls of the Eustachian tubes, and consequent tendency to their obstruction, inflammation of the middle ear, buzzing sounds in the head, and impairment of hearing. When the extension is downward, the voice becomes hoarse or whispering and unmanageable, cough come on, with expectoration and emaciation, to be followed too often by Consumption and Death.

In cases where the bones of the nose become diseased not only is the offensiveness of the breath increased, but there is a liability to serious personal deformities, among which are flattening of the nose.

The swallowing of catarrhal secretions deranges the functions of the stomach, causing indigestion and loss of appetite. Debility, pains, lassitude, [illegible] and disturbance of mind, soon follow. In some instances the mental affection is one of irritability, the patient being unduly annoyed by all the little perplexities of life. In others, the prominent feeling is that of the melancholy or depression of spirits, when the invalid can see no hope for himself or his affairs.

Allusion has been made to the extension of Catarrh by continuity of surface along the natural air passages to the substance of the lungs, thus causing Consumption and Death. In this connection it should also be remembered that the air which enters the lungs of a catarrhal patient is, every breath of it, poisoned by exhalations from the foul secretions of the diseased surface. By such air the blood cannot be properly purified and made fit to impart healthy vigor in its unending circuit, to all and every part of the animal mechanism. One would suppose that this consideration alone would be sufficient to induce every person thus afflicted to make early application for relief.

The treatment of Catarrh is in part constitutional, whereby the energies of the whole system are called to aid in expelling its destructive enemy. It is in part local, whereby the discharge is made less offensive, diminished and finally arrested, and whereby the ulcerated surfaces are healed and restored to its normal condition.

By means of new and ingenious apparatus, Dr. Aborn is able in Catarrh and all other affections of the respiratory organs, to apply his remedies directly to the desired localities. Treatment is thus made more efficient as well as less disagreeable. In many cases the first application of the topical treatment will change the character of the disease and materially purify the breath.

The Daily Oregonian.

THURSDAY MORNING, NOV. 30, 1871.

Thanksgiving, 1871.

In compliance with the recommendation of the National Executive and of the Governors of most of the States, the people of this nation to-day will meet around their firesides and religious altars to acknowledge their gratitude to a beneficent Providence for life, for peace, and for all the blessings of a free Government, and to humbly beseech for their continuance. This is a day in which all citizens, without distinction of sect or creed, who acknowledge the existence of a Supreme Being, can unite in thanksgiving. In this respect this occasion differs from every other; for other festival and thanksgiving days are appointed and observed by different sects or orders, but this one may be commemorated by the whole people,—by all who recognize the Supreme under any name, "Jehovah, Jove or Lord."

During the year about to close we have been peculiarly favored as a people with harvests generally abundant. The husbandman has not tilled in vain. His labors have been liberally rewarded, and in the fruition of his hopes the general prosperity of the whole country has been materially enhanced. A people taught that the earth and the fullness thereof are the Lord's, should confess their obligations for these blessings.

In other ways than by abundant harvests we have been favored. Our commercial and manufacturing interests are steadily increasing in importance, and the future is bright with promise. A few years more, and let us hope that the American people, by persisting in well-doing, may be able to vie with any nation in all the arts of peace. This we shall be able to do if we do not forget that "righteousness exalteth a nation, but sin is a reproach to any people."

Again, we have cause for the greatest gratitude in a cemented Union, in domestic harmony and in freedom from entangling complications which continually keep other nations in a ferment, or in unhappy fear of devastating wars. Keeping in view the solemn admonition of him who was "First in war, first in peace, and first in the hearts of his countrymen," we have marched steadily on in the path of progress. Our general prosperity as a nation has been greatly increased by the honesty and efficiency with which the affairs of Government have been administered. The revenues have been faithfully administered, and the public debt is diminishing rapidly—so rapidly, indeed, that we can see but a short distance before us, entire freedom from pecuniary obligations. With the diminution of the national debt taxes of all kinds will grow lighter, and, altogether, we have ample cause for encouragement. The disastrous effects of four years of civil war have almost ceased to be apparent, and the increase of amity and good feeling between all sections of our country can be regarded as a truly hopeful sign of the times.

Some of our people have, indeed, been afflicted and have met with calamitous losses; but, under the widely diffused blessings of civilization, losses like those experienced by recent fires are now distributed much more widely than they once would have been, and all civilized nations bear their share of the losses, or contribute to the relief of the unfortunate. And this reminds us to express the hope that no one will sit down to his bountiful board to-day without having done at least something toward relieving the necessities of those less fortunate in the possession of worldly goods than himself. It is sad to reflect that to many of our fellow creatures this Thanksgiving will be but a mockery. Cannot every person who has the means of doing it find opportunity to make this a cheerful Thanksgiving to some who otherwise would find it a dreary, weary day?

Not Jealousy, but Admiration.

We wish the *Statesman* to understand that we have made no "ungenerous remarks" about the business of Mr. Myers. Some days ago we made a statement regarding a sale of property to him at Salem and a loan of money out of the State educational fund to make a payment upon it. Mr. Myers wrote an intemperate letter denying the truth of the statement, which, after all, turns out to be substantially true. Inasmuch as he wrote this letter, we were afterwards particular to state all the facts we could gather about the transaction. For this the *Statesman* proceeds to write it down after the manner of Dogberry, by saying: "It appeared to us that these remarks must have been dictated by jealousy of Salem, and that Mr. Myers would not have been made the subject of unfriendly comment if his enterprise had been conducted in the interests of Portland." Talk about jealousy of Salem! Who can have patience with such drivel? We are not aware that Mr. Myers' enterprise is not conducted in the interest of Portland, and no "unfriendly comment" has been made on that enterprise by us. On the contrary, after learning the facts we were particular to state that the money lent to Mr. Myers to enable him to go on with the work, was "doubtless lent lawfully, for a proper object, and on good security." Portland can never be jealous of, but always must admire, a city which boasts of such a journal as the *Statesman*.

In a long article the *Herald* argues that it was President Grant's example (!) that taught Tammany to steal; and that paper now beseeches the country to "clean out" Washington City, to "strike at" Congress, and to discard the Republican party and all its works. The *Herald* seems to forget that the country has just expressed an emphatic approval of the Republican party and the administration of President Grant. Not for thirty years has there been so explicit, so general, so emphatic an expression of popular favor towards an administration in its third year. The deduction from this fact is that the people know to be false the long array of infamous and intemperate accusations which such papers as the *Herald* bring against the administration. For of course if these accusations had any foundation, no party guilty of such crimes as they allege could stand for three months against the tremendous blasts of public condemnation that would overtake it.

There are three hundred fire insurance companies doing business in the United States. Of these one hundred and seventy-five suffered losses at Chicago amounting to $67,077,000. A number of others which had risks in that city have as yet made no accurate report of their losses.

In Washington Territory the Legislature has amended the election law so as to provide for the election of district and county officers next June at the time when the Delegate in Congress is to be chosen. So that the next election in that Territory will be a general one.

A Democratic Diagnosis.

One prominent Democratic politician has discovered that his party is moribund. This sagacious gentleman, who has made a discovery which his whole party will make in a year or two more, hangs out at Davenport, Iowa. It is said that his diagnosis of the condition of his party "creates much excitement." Not at all unlikely, for few members of the decayed organization have penetration enough to see what is the matter, and many do not even know yet that anything is the matter at all. But even this politician who is proclaiming it abroad that his party is "dead," shows that he too is lacking in discernment. For though he plainly says that it is "dead," he talks of "resurrecting its principles" by "abandoning the old party and joining a new organization." Now if there be anything that the doctrine of the Sadducees will apply to, it is the "principles" of the Democratic party. For those principles there is literally "no resurrection." And the Boston *Advertiser* speaks an obvious truth when it says: "The Democratic party is as much out of place in present politics as feudalism would be in the present civilization. They are outgrown institutions. Their conditions were the circumstances of another era. Their spirit, customs and traditions are foreign to our time. Wherever a fragment of either is preserved, it is in a state of decadence, a shame to its own best estate and a satire on the community that has not eradicated it." The Democratic party must abandon its peculiar theory of the constitution of the Government. That is, it must abandon the "principles" which Jefferson gave it. It is perishing of a dry rot, because it has nothing in common with the spirit, sentiment and wants of the present time. Its plans to perpetuate its "principles" are like the plans of a man of fourscore years for an indefinite lease of life and long prosperity and happiness. It has outlived its day, and they who talk of perpetuating its principles,—principles which were rendered forever obsolete by the great war,—may be well answered by the poet's illustration:—

> Like damaged clocks whose hand and bell dissent,
> Folly sings six, while nature points at twelve.

That is, folly suggests a hope of long life yet in store; but nature points unerringly to the doom at hand.

Song for a Family Reunion.

The year that flings her blossoms wide
As spendthrifts cast their gold,
Collects her ripened fruits with pride,
From Summer's fiery mould.
The winged seeds are carried far,
On their mysterious way;
This shoots beneath the polar star,
This 'neath the tropic ray.

Even thus the souls of human kind,
On will's strong current fly,
And their appointed limit find,
To fall and fructify.
But love has blown his blast to-day,
Beneath the glittering dome,
That we should feel within his sway
The deathless joy of home.

And this one comes from desert wastes—
And this from sunny isles,
And this one crowned with sorrow's bastes,
And this one crowned with smiles.
Blessed was the freedom that enlarged
Our youth's unfolding powers,
The daring impulse that surcharged,
With life, our pilgrim hours.

But happier yet the sacred bond
That doth our presence claim,
That conjures memories full and fond
With one ancestral name.
Freedom and love are welded both
In ties of kindred blood;
So let us, thankful, pledge our troth
To human brotherhood.

SAN FRANCISCO, Nov. 29.—The Hon. Newton Booth, Governor elect, delivered an address at the City Temple Seminary anniversary exercises to-day.

Golden Chariot, Idaho mining stock, has risen in two days from five to twenty-four. The transactions this evening are very heavy. The whole list was generally higher to-night.

News of the death of ex-Governor John Bigler of Sacramento, to-day, was received this evening.

A new Democratic daily evening paper commences publication here next Monday. It has an office on Montgomery street near Merchant. Henry George is said to be engaged as leading editor. Old newspaper men think with half a million dollars capital properly expended, it would be able to run for some time.

It is believed the bark *Live Yankee* from Portland is lost with all on board. Nothing in regard to her fate is yet learned.

The Grass Valley Miners' Home Lottery was drawn to-day. Ticket No. 338 wins three thousand dollars.

INTERIOR CALIFORNIA DISPATCHES.

STOCKTON, Nov. 29.—To-morrow Thanksgiving will be generally observed as a holiday by the people of this city. The public schools will be closed until Monday.

The weather to-night is clear and pleasant.

SAN JOSE, Nov. 29.—This morning Wm. Frink, aged eighteen years, son of Daniel Frink, of Mountain View, had his hand shattered by the accidental discharge of a fowling piece. It is feared his whole hand will have to be amputated.

NEVADA.

RENO, Nov. 29.—Monday morning Mr. Heath started from Summit Valley to repair the telegraph lines, a distance of eleven and a half miles, to Truckee. Not reaching Truckee on Tuesday, night parties went out in search of him, and found him in a house ten miles from the Summit. He was two days and nights making the distance through the snow, which was four feet deep. He was brought to Truckee, and will soon be all right.

UTAH.

SALT LAKE, Nov. 29.—The mail carrier from Cottonwood arrived this afternoon having left there yesterday morning. He reports snow six feet deep on the level and drifts from 20 to 100 feet deep. The principal mining claims continue work as usual. The Emma mine operations are uninterrupted.

Thanksgiving will be observed by all. The Mormon journal says notwithstanding the crusade against the Latter Day Saints, they can heartily join in praise to God, for they know from past experience that when their extremity has been greatest their deliverance and triumph have also been nearest.

The motion to quash the indictment against Brigham Young and others for murder is still under hearing before the United States court.

An exchange says: "The New York Democrats see the handwriting on the wall." To which the New York *Standard* adds: "It's well enough for them to see the handwriting on the wall, but suppose they can't read?"

The Emperor of China is, says the *Courrier Diplomatique*, about to be married. As on such an occasion certain special taxes are levied, considerable discontent is felt by the people.

PROCLAMATION.

TO ALL TO WHOM THESE PRESENTS SHALL come, greeting:—Having been in the Grocery Business in Portland about five years, we are now prepared to say that our REGULAR CUSTOMERS in that line will support us and purchase the stock to supply the State of Oregon with BULBS OF ANY AND ALL VARIETIES FREE OF CHARGE.

Therefore, our stock of Seeds and Bulbs, etc., will be dispensed to the people of Oregon CHEAPER THAN ANY OTHER HOUSE THIS SIDE OF THE ROCKY MOUNTAINS.

A new and large invoice by the incoming steamer. We purchase our Seed, etc., in the Eastern Market, PAY CASH, and can supply the trade of Oregon, and still make a hundred per cent. on our investment. If you do not believe it, come and compare our prices before buying elsewhere.

Well, the County Clerk has to give a heavy bond, and here was another scene. Far and near, Democrats, Conservatives, Know Nothings and Black Republicans were tried; finally towards evening enough were found to respond to the call; but the effort was agonizing in the extreme. The bond was accepted by his most serene Majesty. The Clerk was made and all was serene. When lo! after a time a change came over the spirit of their dreams. It appeared that the new-made Clerk was not eligible. There were deep groans and manifestations of sorrow. Well, the upshot of it was, His Most Serene Highness re sat; all that had been done was taken back and swallowed at a gulp, with but one effort. A resident was appointed, and after a whole day's pain and travail a clerk was brought forth, and the evening and morning were the first day, again.

Dr. McLean, who has resided amongst us for a few months, and who has by his kindness, geniality, won for himself many warm friends, goes, to-day, to Vancouver, where he has good prospects ahead. May good fortune go with him to his new field of operations.

The snow here Sunday morning was six inches deep.

OUR ROADS.—Since winter has set in we hear frequent complaints about the condition of the roads leading out of this city in various directions, and especially in relation to the Canyon road. It is stated that this road is next thing to impassable in consequence of the mud, resulting from faulty grading. The roadway is lower than either side of the road, and the water, of course, takes the roadway. Every day's use makes it worse, by deepening the mud holes. Persons who have traveled it within the last day or two represent it as almost a continuous slough of mud from the base to the summit of the mountain. It would seem that the expenditure of money which is annually bestowed on this road should make it better than it is. We do not know precisely the amount annually laid out upon it, but suppose it cannot be less than two to four thousand dollars. That amount applied in the construction of a plank or rounded Macadam road, would in a few years furnish a good road from one end of the Canyon to the other. The best interests of the city [illegible]—and that hereafter the money appropriated for that road shall be placed in the hands of a competent man to be expended with a view to making a road which shall be good the year round. If not more than a half mile be made each year, it will be better than to practically waste the whole appropriation as has been usually done heretofore. There is plenty of evidence that the bad condition of the roads connecting the city with the country costs the trade of the city enough every year to make the roads first class. It is time something were done to correct this state of things.

THANKSGIVING SERVICES.—There will be religious services in the Unitarian Church this morning, at 11 o'clock, Rev. T. L. Eliot, pastor.

Rev. W. H. Miesse will preach at 11 o'clock this morning, at the Hall-street M. E. Church.

A union meeting of the churches will be held in the Taylor-street M. E. Church at 11 o'clock A. M., this Thanksgiving day. Rev. Mr. Weaver, pastor of the Evangelical Lutheran Church, will conduct the services. A collection will be taken for the Ladies' Relief Society.

RELIEF TRANSMITTED.—Mayor Wasserman yesterday transmitted to Hon. Geo. M. Pullman, Treasurer of the Chicago Aid and Relief Society, a check for $3,000 upon the Manufacturers' National Bank of Chicago, with these words of sympathy and encouragement: "The people of Oregon follow the efforts to rebuild Chicago, with intense interest, and wish you God speed. May the [illegible] city of Chicago arise out of her ashes, even more splendid and substantial than the one destroyed, and know conflagration no more." The sum total of money sent by Mayor Wasserman to Chicago amounts to $13,000.

TEMPERANCE ITEMS.—A basket dinner will be given by the temperance people in the vicinity of Independence school house, near Shedd's, on Saturday, December 16th, free to all. There will be several temperance addresses suitable to the occasion. ......Friends of Temperance will be cheered to hear that encouraging reports are coming in from almost every direction, giving assurance that the Roll of Honor will not lack for names.—Hall-street M. E. Church, Portland, sent in the first list—forty-five.

A MATTER OF IDENTITY.—For the benefit of all concerned we will state that the man, Allen, mentioned yesterday morning as having been fined for abusing a juror, was not James Allen, the constable. A few days ago one John Thomas was up in the Police Court for stealing a pair of boots or something of that sort. The public will please understand that he is altogether another man from John L. Thomas, the machinist.

LOSS OF THE HATTIE C. BESSE.

The steamship *California*, which arrived yesterday morning from Puget Sound, brings intelligence of another terrific storm along the northern coast and in the Straits of Fuca on the 22d and 23d. The four-masted bark *Hattie C. Besse* was wrecked on the 23d off Cape Flattery. Mr. Harris, of Harris & Holman, principal owners, furnishes us the following:

LETTER FROM THE MASTER:

U. S. INDIAN RESERVATION,
Neah Bay, W. T., Nov. 26, 1871.

Messrs Harris & Holman: I have to inform you of the total loss of the *Hattie C. Besse* on the morning of the 23d on Cape Flattery. I found myself on a lee shore and had to anchor, the chains parting soon after letting go the anchors.

I wish you would telegraph to Port Townsend for the cutter to go down and get the crew. One man has a broken leg and another is injured who cannot get up without assistance.

The wreck is about twenty miles south of Tatoosh light. JAMES H. GRAGG.

ADDITIONAL PARTICULARS.

The vessel was worth about $40,000, and was going from San Francisco to Puget Sound in ballast to load lumber for Shanghai. She was owned by Harris & Holman and others in this city. The crew, at last accounts, were camped near the wreck. The Captain walked up to Neah Bay, some twenty five miles, and gave information. Nothing was saved from the wreck but a small quantity of provisions and a few sails. The vessel shortly after she went on shore, broke in two. Insurance on her amounts to about $15,000, in San Francisco offices.

CREW OF INDIANS LOST.

In the same storm, nine Neah Bay Indians were lost. They were outside in a canoe, and being overtaken by the gale were capsized and every one drowned.

No other disaster is reported. The *California* and the *North Pacific* were detained in Port Townsend bay one day—the 23d—by the severity of the storm.

LOCAL BREVITIES.

There was a trifle of ice yesterday mornin on still water.

The fines collected in the Police Court during November amount to $723 50.

The Taylor street Sunday School has so increased in numbers that an enlargement of the room became necessary.

Our *Herald* friend has been trying a Heathen Chinee doctor, but without any decisive beneficial results. The M. D. didn't sabe.

Forasmuch as it has pleased Almighty God to summons hence our well beloved brother, Patriarch C. O. Clark, therefore, be it by this Encampment

Resolved, That while bowing in submissive resignation to the fiat of "Him who doeth all things well," and who as we reverently trust hath called our brother to that blessed rest reserved for the just and perfect, we, nevertheless, feel that by the death of Patriarch C. O. Clark this Encampment has lost one of its most worthy and efficient members, and the fraternity of Odd Fellows one of its most earnest supporters.

Resolved, That whether regarded in the ligh of of a friend, a citizen, or as an Odd Fellow, we recognize in the character of our departed brother an example worthy of imitation.

Resolved, That we tender to the widow and family of the deceased our sincere sympathy in this our common affliction.

Resolved, That these resolutions be spread in the minutes of this Encampment; that copies thereof, under the Encampment seal, be prepared and forwarded, one to the widow of our deceased brother, and the others to each of the daily papers in this city, for publication.

Seeing is believing, so go and examine their stock.

TESTIMONIAL.

We the undersigned having been the recipients of the services of Mrs. M. C. White in teaching the science of Music on the Pianoforte, take pleasure in giving a hearty testimonial that we have employed her in our families as a teacher of her "New Method of Instruction," and that it has proven superior to any method we have ever known. And that although the first cost may be a trifle greater than some others, we believe it to be in the aggregate much cheaper, beside being a great economy in point of time. We, therefore, take pleasure in recommending her to the patronage of all who may be desirous of obtaining a musical education, as a very superior instructor.

To those who desire to know more about it before incrassing any expense, we give a cordial invitation to call at our homes and interview her pupils.

The True Grounds of Confidence.

Whence comes that firm reliance, that absolute undoubting faith in the efficacy of Hostetter's Stomach Bitters as a remedy for indigestion, billious disorders, intermittent and remittent fevers, which notoriously prevails in all parts of the United States? This confidence has been growing for twenty years, and is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts, that resort to this wholesome vegetable tonic as a preventive escape periodical fevers, and their immediate neighbors, who neglect that precaution, are prostrated by disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its indorsement? Eye witnesses of the salutary effects of the bitters are to be found in every civilized settlement on this continent. Thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness to its extraordinary medical properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state the reason for the faith that is in he or witnessed its beneficent operations.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!
ASSETS .... $17 000,000!
ISSUED 9.925 POLICIES IN 1870.
Insuring Over $27,000,000!
WM. H. BEERS, Vice President and Actuary.
MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay accruing losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indepted for a feature so favorable to the insured.

5th. SUICIDE does not cause a *forfeiture* of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS. Its dividends are declared annually, and are available *immediately as cash in payment of premiums.* Many companies declare their premiums annually, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always basis dividend which can be used in the payment of the *second and all subsequent annual premiums.*

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. These dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the Trustees simply occupying the position of arbitrators between the members, with no inducement to take from one and give to another.

INTERVIEWED.
Bold Opinions Truly Expressed.

POPULARITY IS NOT ALWAYS A proof of desert. Every newspaper man knows that. Many articles are engineered into temporary popularity that have no intrinsic merit whatever. It is an easy thing to make sweeping assertions and sow them broadcast in the columns of the public press. But there is a class of experienced and thoughtful birds not to be caught with chaff, like Captain Cattle, they want "an opinion as is an opinion," in other words, the judgment of competent and disinterested authority, as a basis for their own.

Several of those cautious individuals having done us the honor to invite an expression of opinion in these columns on the properties of the much talked of Tonic known as PLANTATION BITTERS, we have taken the pains to obtain from a distinguished physician whose ability and integrity of purpose no one will venture to question, what may fairly be deemed a conclusive answer to the questions of our correspondents. Dr. Elias Kennedy Whitmarsh, as a surgeon, pathologist and chemist, has few superiors west of the Alleghanies, and the following conversation which occurred a few days ago between that gentleman and one of our staff, is offered, without comment, for the information of "whom it may concern:"

REPORTER.—Have you any objection to state your views in relation to a medicinal preparation which has obtained great celebrity in this country? The object is to ascertain whether the reputation is deserved or not.

DR. WHITMARSH—If I know anything about the article, I'll tell you what I think of it. How is it named?

REPORTER—PLANTATION BITTERS.

DR. WHITMARSH—Well, it is a wholesome vegetable tonic.

REPORTER—Anything else?

WHITMARSH—Yes, it has a mild aperient property, and produces a salutary effect upon the liver when that organ is diseased.

REPORTER—It contains alcohol I understand—Santa Croix Rum.

DR. WHITMARSH—Of course it contains a diffusive stimulant. If it did not its medicinal ingredients would be comparatively inert. They are rendered operative by the alcoholic principle.

REPORTER—Supposing that theory to be correct, is Santa Croix Rum a good article for that purpose?

DR. WHITMARSH—The best I think. It is more nutricious and far less exciting than the spirits made from grapes or grain.

REPORTER—But are stimulants really necessary at all in medical treatment?

DR. WHITMARSH—Sir, if you had ever practiced medicine you would not ask the question. They are an essential portion of the *materia medica.* Every intelligent member of the profession knows that. The physician who denies it is either a hypocrite or a fool.

REPORTER—Do you consider a medicated stimulant like the PLANTATION BITTERS preferable to simple alcohol? In other words, would the Santa Croix Rum be as useful without the other ingredients as with them?

DR. WHITMARSH—Certainly not. Among those ingredients are Extract of Dandelion, one of the finest antibilious medicines I know of; Calisaya Bark, of all tonics the best; and Chamomile, an admirable stomachic. The remedial powers of these curatives is increased probably tenfold by the nutritive stimulant with which they are incorporated.

REPORTER—You seem to have a high opinion of the Bitters.

DR. WHITMARSH—I simply state facts, sir. You must draw your own conclusions.

REPORTER—May I ask if you ever prescribed PLANTATION BITTERS for your patients?

DR. WHITMARSH—I do, frequently. All that I have said to you is founded on my own experience. I never make positive statements on unsubstantial grounds.

REPORTER—I am sure of that. Excuse me for having trespassed so long on your valuable time. Good evening.

We presume the correspondents who have addressed us on the subject of PLANTATION BITTERS, will consider their questions satisfactorily answered by the remarks of Dr. Whitmarsh.

Please give her an immediate call and inquire what the method is.

FINANCE AND COMMERCE.

WEDNESDAY EVENING, Nov. 29, 1871.

Gold in New York—110⅞.

Portland Legal Tender quotations, 90c buying, and 90½ selling.

Exchange on San Francisco, ¼@½ ₩c. prem.; on New York, 1½ ₩c. prem. Telegraphic transfers on New York, 1½@1¾ ₩c. prem.

Our home finances present no new feature since our last week's review. All regular customers are accommodated at the banks at 1 per cent, with a bonus paid by some. On the street money is worth 1½@2 per cent. per month on short loans. Long loans are difficult to negotiate, even with handsome commissions paid.

The steamer *California*, from Victoria and Sound ports, arrived this morning. She will commence receiving cargo on Friday morning for Victoria and Sound ports.

Intelligence received by the *California* states that the bark *Hattie C. Besse*, in ballast from San Francisco to Puget Sound to load Lumber for Shanghai, went ashore on Cape Flattery. She is a total loss, and was only covered by insurance amounting to $10,000. She was under charter at $11,000.

We note an improved tone in the Real Estate market, with more inquiry and more sales made during the past week than for any week since June. This demand is legitimate, as many who have purchased are either building or are contemplating building. These remarks apply to both sides of the river, but more particularly in the northern portion of this city and on the East side in what is known as Holladay's Addition, where Real Estate has advanced and, if correctly informed as to contemplated improvements and business enterprises to be inaugurated and prosecuted to completion next year in that Addition, must necessarily still further enhance property both there and in the northern portion of this city. Many parties in this city possessed of [illegible] and good salary, or business, wish to [illegible] their property or else wish to purchase homesteads, who are denied that privilege for the want of means, and are unable to borrow except at exorbitant rates. Had we a Savings and Loan Bank here, these parties and many others could be accommodated, which would not only add wealth to our city, but also aid worthy citizens.

From the San Francisco *Commercial Herald* of Nov. 24th, we glean the following items in regard to the general merchandise market:

Stocks of French Goods, for the most part, appear to be running light, and prices harden under the influence of lessened receipts.

The market is poorly supplied with new crop Raisins for the holidays, and, in the absence of our usual supply from Malaga, are compelled to draw supplies from New York by rail, and these are coming forward very sparingly.

We remark an increased demand for most descriptions of spices, though no important sales have been brought to our notice and no disposition is manifested on the part of importers to press sales.

Thus far during the month upwards of 2,600 tons of Scotch and English Pig Iron have changed hands. No. 1 is now held at $50. It is said that the local consumption for four months past has [illegible] the entire consumption of the year [illegible] the key to the whole movement. Other [illegible] in this advance, owing to the increased [illegible] by mills and other industries that are being prosecuted on the Pacific slope with increased energy and with profitable results. Many enterprises that have languished and laid dormant for two years or more have recently awakened into new life, causing a large consumption of material for their development.

Spirits Turpentine is out of first hands, last sales by the invoice at 85c.

The market is entirely bare of anthracite Coal, and, in order to secure a few tons for special use, $30 and upward has been paid for Pittston, and more would be given for Lehigh were it obtainable. Cumberland is also in light supply.

The stock of Lumber, as well as receipts generally, show a falling off in the supply. The interior demand is good and the local trade fair for the season. The export demand is continued, with liberal cargo sales, both for delivery here and at mill ports.

There is no life or animation to the general Candle market, yet we remark a good degree of firmness upon the part of leading importers, with a fair interior trade, and with no desire manifested to purchase beyond present wants.

The bark *D. C. Murray*, from Honolulu, brought 1,794 kegs and 698 bags of Sugar, and the *R. W. Woods*, to arrive, has about 2,000 bags, being what is supposed to be the balance of the crop.

Our stock of Chemicals is running very short and prices gradually working up.

Our entire stock of Coffee in first hands approximates 15,000 bags green, of which about 10,000 is Central American and the balance Rio, embracing one entire cargo, the *Carrique* (5,?01 bags) which remains entire. Our market at present is exceedingly languid for all descriptions of green, sympathizing fully with Eastern marts.

The markets for Oils East, as well as upon this coast, are still unsettled. The entire stock of Oil held in the United States on the 1st of the present month amounted to 18,000 bbls Sperm and 33,000 bbls Whale, against a stock of 23,650 bbls Sperm and 38,000 bbls Whale on the 1st of January, leaving two months' consumption yet to be estimated before the close of the year. This quantity held in Boston is 1,000 bbls Sperm and 509 bbls Whale.

WEEKLY MARKET REVIEW.

Produce Market.

WHEAT—The market continues to droop under advices from Liverpool and San Francisco. The telegraphic advices are to the effect that the long looked for rains have at last set in in good earnest which will probably have the effect of breaking the firm tone of the market there. Now that the rains have come many will throw their Grain on the market to realize as soon as possible so as to stop interest and other expenses. Receipts except by way of The Dalles, have ceased, as the warehouses cannot hold any more. The brig *Orient* and steamer *Ajax* will take all of 1,000 tons to San Francisco. We quote market to-day at $2 20@2 25 ₩ cental, sacked.

FLOUR—The market is devoid of animation, both for local consumption and export. The local consumption fell off in consequence of the general belief that prices could not be maintained for standard brands; the export demand is curtailed by lack of vessels to take the offering to Victoria and Sound ports. TO THE UNFORTUNATE,

NEW REMEDIES, NEW REMEDIES.

Dr. Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases of years standing and Ulcerated [illegible] successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal [illegible] of Europe, and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with [illegible] facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering on at a miserable [illegible] once from the effects of secret indulgences or from [illegible] absorbed into the system! Look at their pallid, [illegible] fad and disfigured faces and their broken-down [illegible], disqualifying them for the happiness of [illegible] or the enjoyment of life. In this horrid [illegible] and suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his special study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful to make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of [illegible], uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, [illegible] under any of these fearful [illegible], not forget this sacred responsibility, resting [illegible] obtain immediate relief.

DOCTOR GIBBON is responsible [illegible] patient a written instrument [illegible] radical and permanent cure, or [illegible] charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars [illegible] letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and [illegible] who, with bogus sworn-to certificates [illegible] the money. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are traders [illegible] and have [illegible] lazy too work at their trades. [illegible] makers, newspaper carriers, [illegible] keepers, etc. Look over the San Francisco [illegible] and you will not find their Medical Institutes [illegible] you will find their former occupations in it, [illegible] the Directory for 1862 and 1863. The only way [illegible] imposition is to make inquiry—it will cost you [illegible] and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there [illegible] in [illegible] any of them until you know [illegible] what they are. Dr. Gibbon does not deceive [illegible] exhibiting bogus titles, certificates, pretended [illegible], etc. Dr. Gibbon will satisfy persons who [illegible] his ability to treat diseases that [illegible] to cure.
